Photoshop is a large, complex program with a steep learning curve. Working with layers is the most critical part of the program, and you must master this feature before you can use the rest of the program. If you already have experience with other types of image editing software such as Paint Shop Pro or CorelDraw, you'll be able to adapt to Photoshop easily and quickly. Figure 3-1 shows a schematic of a feature comparison between Photoshop and CorelDraw. The third column represents the feature sets available in each of the programs. **Figure 3-1:** Illustrating the feature set of Photoshop and CorelDraw. Understanding Photoshop Layers Photoshop layers are a way to break up a single layer into multiple sections that are treated as different layers. Layers can be moved, scaled, and rotated independently from one another, which makes layers extremely useful for photo composition. Figure 3-2 illustrates several layers and their stacked appearance in the Layers panel. **Figure 3-2:** Layers and their stacking state. In the Layers panel (as shown in Figure 3-2), you can see a vector layer, a raster layer, and four new layers you just created. Each of these layers is identified as a layer in the Layers panel. You must understand how to use layers to utilize the possibilities of layers and to perform editing with the most efficient and accurate results. In this section, I'll show you the key features of layers. Creating a new layer After opening an image and viewing it in the thumbnail layer preview window (bottom left corner of your image), you can easily select the layer you want to work with by highlighting it in the Layers panel, as shown in Figure 3-2. If you want to create a new layer, right-click (Windows) or Control+click (Mac) the layer, as shown in Figure 3-3. In the shortcut menu that appears, choose Create a New Layer or press Ctrl+Alt+N. A new layer is created and placed above the selected layer. You can then move or resize the new layer. **Figure 3-3:** Create a new layer by right-clicking (Windows) or Control+clicking (Mac). To change the layer order in which layers appear, select the layer in the Layers panel and drag it to any other position in the panel. By default, all

Cricket is a game that has a professional structure to it. Every player is a part of it, and every game has a referee. Yet, the referee's decisions are just another part of the game. One might say it's unfair, and even downright cheating. But that's life in the world of cricket. That being said, here are 8 of the most controversial decisions in cricket history. 8. WICKET KEEPS WICKET Australia v England, 2006 A heavy ball from Josh Hobbs struck Glenn McGrath in the back, and he kept going for three runs. Eventually, the umpire gave him out, and people in the crowd in their hundreds started booing the decision. It wasn't until the end that McGrath acknowledged that he wouldn't be able to walk again, and, in an amazing and inspiring moment, he accepted the decision, raised his bat, and returned to the field. 7. KAYE'S KICK Australia v Pakistan, 2008 Alex 'Kayser' Kervezee is the name of the young, and surprisingly decent, fast bowler that Pakistan was facing in the 2005 World Cup Final. He was going through a rotten time at the time, so when the moment presented itself, he gave his wicket away. With his dearest wish fulfilled, he kicked the ball, just like a lad would. Unsurprisingly, this move led to a no-ball, and then a wicket, and the result was that Pakistan were eliminated from the tournament. 6. PRECISELY PLACED WICKET Australia v England, 2004 It's a legendary moment that John Howard will have to watch several times in his life. Allan Border was batting, and on 0, with 2 balls remaining. He needed 60 runs to break the game open and put Australia ahead, so what happened next was a historic win for England, Australia's first win in 84 test matches, and Tony Greig became the most polarizing commentator there has ever been. What's the point in doing something if we don't have a full day to spend on it? 5. RUV SAMBHALL'S UPPERCUT India v South Africa, 2001 It was the first time these two sides met in test matches. It was 1999-
